religious violence is surely as old as both faith and fighting themselves in the russian federation as elsewhere in the world religious teachings and philosophies are used both to justify and combat violence while many including russian authorities increasingly view religious conflict through the prism of violent radical islamic jihadism the full picture is much more complicated it includes religious propaganda employed by violent right wing groups violent repression of religious communities and organizations by local and federal authorities and conflict within religious confessions violence may be couched in the language of self defense as modernity clashes with a multitude of perceived and real traditions a better understanding of the dynamics at the heart of religious violence in russia in its many manifestations is critical to the country s future development and its security the analyses collected in this volume aim to contribute to the body of knowledge on these

the conflict in eastern ukraine and the european refugee crisis have led to a dramatic increase in forced displacement across europe fleeing war and violence millions of refugees and internally displaced people face the social and political cultures of the predominantly christian orthodox countries in the post soviet space and southeastern europe this book examines the ambivalence of orthodox churches and other religious communities some of which have provided support to migrants and displaced populations while others have condemned their arrival how have religious communities and state institutions engaged with forced migration how has forced migration impacted upon religious practices values and political structures in the region in which ways do orthodox churches promote human security in relation to violence and the other the book explores these questions by bringing together an international team of scholars to examine extensive material in the former soviet states ukraine russia georgia and belarus southeastern europe turkey greece serbia bulgaria and romania western europe and the united states

regulatory reforms in the eu s eastern neighbourhood countries are not as sluggish as often perceived rule enforcement is happening despite the presence of domestic veto players who favour the status quo the lack of eu membership perspective and the presence of russia as an alternative governance provider using ukraine as a primary case study this book examines why convergence with transnational market rules varies across different policy sectors within the eastern neighbourhood countries it analyzes the drivers of regulatory change and explores the conditions under which post soviet economies integrate with international markets in doing so it argues that the impetus for regulatory change in the eastern neighbourhood lies in specific strategies of domestic empowerment applied by external actors furthermore through the study of the impact of western and russian transnational actors the book concludes that russia s presence does not necessarily hinder the integration of the eu s eastern neighbours with international markets instead russia both weakens and strengthens domestic support for convergence with transnational market rules in the region this book will be of key interest to students and scholars of european eu studies and international relations especially in the areas of regulatory politics transnational governance public policy and post soviet transitions
